Covid-secure respite - what to expect

The same great welcome, good food and fantastic setting is still here but there are some sensible precautions to keep us all safe:

Full PPE remains readily available and is always used according to the latest advice. This means that the team in Leuchie wear masks in all public areas and masks, gloves and, if necessary, aprons when supporting guests.

The team is tested 3x a week and every visitor is required to show a negative LFT test, taken on the day of their visit, before entering the building.

It is getting easier to provide engaging activities for guests and Victoria is taking advantage of every opportunity. As everything has gone online, we are trialling zoom exercise classes provided by MS-UK.

Since Moni's retirement we appointed a physiotherapist who discovered that Leuchie was not for her and we are actively recruiting again.

We are mostly back to dining in one room, which is wonderful because being social is part of what Leuchie is all about!

Outings are back with at least 1 per stay, which is a relief for everyone and we're also glad to welcome back complementary therapies

& of course - the food remains at least as good as it ever was!

Please call **Katy** or **Jo** in bookings if you have any further questions, on **01620 892864**.
